Our new Designer Series CX Multi Drawer Refrigerators are perfect for those that have limited kitchen space, with a big focus on style. With a stunning flat panel design, inverter technology, and advanced functionality, the CX range is the ultimate solution for small to medium sized households.

Inverter Technology for 30% More Power Savings*

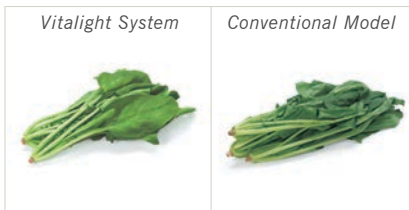

Mitsubishi Electric's CX Series is 30% more efficient in comparison to our G Series for greater energy savings. Equipped with an advanced inverter compressor with Mitsubishi Electric's Neuro Fuzzy Logic Technology, the CX series achieves an impressive 3.5 star energy rating. The CX is able to memorise your usage patterns and adapt energy usage for more savings.

*Compared to G-Series model.

Humidity Drawer with Advanced Vitalight Technology

The celebrated Humidity Drawer has now gone a step further with advanced Vitalight Technology. The addition of an amber LED light allows fruit and vegetables to stay fresher than ever before by absorbing energy from the light.

a week of storage

Vitalight Technology – Keep Vegetables Fresher for Longer

The unique Vitalight LED lighting system is designed to slow down the wilting process of leafy greens and maintain their original vitamin and antioxidant levels for longer. Vegetables and fruit stored in the specially designed Humidity Drawer with its integrated Vitalight LED system will last significantly longer in comparison to conventional vegetable crisper bins.

Non-Plumbed Automatic Ice Maker

The water tank located at the base of the Refrigeration Compartment saves significantly more space in comparison to plumbed ice makers, which typically have ice makers integrated into the door design and compromise on available depth. The water tank is easily removed, cleaned, and refilled at the kitchen sink without the hassle and additional cost of plumbing the refrigerator into the water supply.

Next Generation Refrigeration - Multi Drawers with Inverter Technology

Two Drawer Multi Drawer Technology is more advanced than ever before with the introduction of the CX Series. Incorporating Inverter Technology for advanced energy savings, Vitalight Technology to ensure fruit and vegetables stay fresher for longer, and a new flat panel design, this is the ultimate in fresh food storage.

The Mitsubishi Electric Inverter Advantage

A tenfold reduction in sound intensity*

The new CX Series truly is whisper quiet. Rated at 17 dBA – no other refrigerator in its class is quieter!

*In comparison to G Series Models.

30% more energy efficient*

Next generation Inverter Technology means unparalleled power savings in comparison to traditional non-inverter models.

Ergonomic User Friendly Layout

Designed with frequency of use taken into consideration, the Refrigerator Compartment is located at the top, the fruit and vegetable Humidity Drawer is in the middle and the Freezer Drawer is at the bottom. This design minimises the amount of bending required when accessing the refrigerator.

Sliding Chilled Cases

Set at around 0°C, the Sliding Chilled Cases are perfect for dairy products, meats, or chilling drinks. Two separate cases provide flexible storage options for longer lasting freshness.

Easy Clean Ice Maker

The water supply system for the Automatic Ice Maker is easy to clean; removable water tank components just need to be flushed periodically with water to maintain optimum performance.

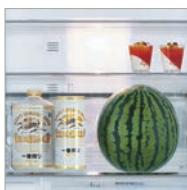

Two-Way Glass Flexi Shelf

The Two-Way Glass Flexi Shelf enables you to maximise your storage options by creating additional space when you need it.

Freezer Drawer

The Freezer Drawer is divided by a sliding tray at the top that can be pushed back to reveal the rest of the drawer.

The Freezer Drawer is roomy enough to fit bulky items such as ice cream tubs, loaves of bread and frozen vegetables. The top tray is ideal for storage and organisation of flat pack items such as meat packs.

All Features: MR-CX370EJ & MR-CX402EJ

Multi Airflow	Adjustable Tempered Glass Shelves	Egg Shelf	Sliding Chilled Cases	LED Lighting	Non-Plumbed Ice Maker	Humidity Drawer	Deodoriser
Frost Free	Freezer Drawer	Door Alarm	4 Casters	2 Adjustable Feet	Neuro Inverter Technology	Whisper Quiet 17dBA
