Both WX627Y and WX743Y available in Rich Mahogany and White Diamond.

Advanced Inverter Technology

The use of super-efficient inverter technology combined with eight monitored temperature sensors installed throughout the refrigerator makes the WX Series one of the most efficient fridge ranges in New Zealand. The WX is able to accurately control the temperature of each drawer to ensure excellent customisation and minimal temperature fluctuations. Not only that, but the WX learns from and adapts to your lifestyle, optimising output for unparalleled energy efficiency.

**NEURO
INVERTER**

Award Winning Energy Efficiency

The WX achieves a 3.5 star energy rating and has been awarded the Energy Star® mark. Energy Star® qualified refrigerators use up to 40% less energy compared to non-qualified models.

Whisper Quiet - Ideal for Open Plan Living

The WX Series truly is whisper quiet, rated at only 15dBA. In fact, no other refrigerator in its class is quieter.

WX627/743 - Quietest
in their Class!

Super Bright Interior LED Lights

Soft Closing Doors

Door and Drawer Alarm

Touch Screen LED Control Panel

Glass Front Flat Panel Design

Large Door Pockets

Glass Panel Four Drawer Range

Slimline Design - Maximises Internal Space

Unique 'vacuum insulation panels', or 'VIP', is thinner and 10x more efficient than conventional insulation. The result is a larger internal capacity whilst maintaining smaller external dimensions, for a slim, sleek design. At a convenient 685mm wide, the WX627 is able to easily slot into an existing 700mm cavity while providing ample internal space.

1 Multipurpose Double Drawer Sliding Chilled Case

With a set temperature range between 0°C to 3°C, the top drawer is ideal for storing deli items such as meats, cheeses and dips. In Supercool Chilling Mode, the bottom drawer is perfect for storing fresh meats and fish for up to 7 days without freezing as it drops to -3°C. This also serves as additional chilling space for beverages.

2 Non-Plumbed Automatic Ice Maker

The WX Series features the Non-Plumbed Automatic Ice Maker to ensure you always have fresh, clean ice. Not only that, but no plumbing is required! Simply fill the removable water tank in the refrigeration compartment and the Automatic Ice Maker will do the rest.

3 Multifunctional Versa Freezing Locks in Freshness, Taste, and Texture

The Versa Freezer Drawer preserves food quality, maintaining texture and taste, making storage more convenient and preparation a breeze even while food is still frozen. It offers advanced freezing options such as Soft Freezing, Hot Freezing and Supercool Freezing for ultimate control and versatility.

2 SCOOP

3 DIVIDE

4 Freezer Drawer

A convenient sliding top tray is ideal for large flat pack or frequently accessed items, and is easily pushed back to reveal the large bin below for bulky items. The useful top-down view ensures that your food is easy to organise.

5 Vitalight Humidity Drawer – Keeps Produce Fresher for Longer

In New Zealand we are lucky to have some of the freshest fruit and vegetables in the world. To keep food fresh as nature intended, the WX Series has a specially designed humidity drawer with advanced Vitalight Technology. An amber LED light installed in the drawer recreates sunlight to keep your produce fresher for longer. The result? Vitamin and anti-oxidant levels of produce lasts longer; for fresher, healthier vegetables.
