

HS Bottom Mount FRIDGE RANGE

Match your kitchen design with the HS Bottom Mount Fridge. Its unique 50:50 door design aligns seamlessly with kiwi kitchen bench heights of 900mm, resulting in a larger lower freezer space to store more!

Available at selected retailers only.

Unique Design That Fits the Gap

At 699mm wide not only does the HS model fit perfectly in the average kiwi kitchen but it also has a very unique 50:50 design. This design is aligned with the common kitchen bench height in New Zealand of 900mm allowing the door split to blend in seamlessly, and give more space to the lower freezer.

Chilled Zone

Perfect for short term storage, the chilled zone is able to preserve meat for up to 4 days and fish for up to 3 days without the need for freezing.

Select Zone

The temperature can be switched between 'soft freezing' and 'chilling' modes for added convenience. Chilling mode cools to a lower temperature than the refrigerator compartment, to preserve the freshness of food. Use soft freeze mode to keep meat, dips and baby food in a soft state for easy food preparation.

Fresh Box with Vitalight Technology

Slow down the wilting process of leafy greens and maintain their original vitamin and antioxidant levels with the unique Vitalight Amber LED Lighting System. Fruit and vegetables stored in this specially designed Fresh Box with its integrated Vitalight Technology will last significantly longer in comparison to conventional vegetable crisper bins.

Non-Plumbed Automatic Ice Maker

Always have fresh, clean ice with the Non-Plumbed Automatic Ice Maker. As there is no separate plumbing connection required, this cost-effective approach to ice making means the fridge can be placed anywhere in the kitchen, not just near existing pipe work. Simply fill the removable water tank and the ice maker is ready to go.

Clean Fridge Technology

Featuring special antibacterial coating on the lining of the fridge as well as a blue LED catalyst deodorizer light which removes bacteria as it passes through the filter, ensuring that the inside of the fridge is kept clean.

Refrigerator Compartment

1. Fresh Box with Vitalight Technology
– Keeps fruit and vegetables fresher for longer
2. Large Door Pocket – Able to hold 6x 2L bottles
3. Tempered Glass Shelves

Freezer Compartment

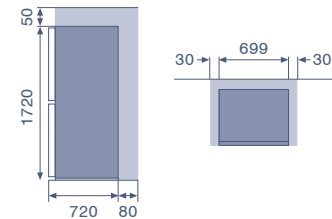

4. Chilled Zone – Preserves the taste of meat for up to 4 days without freezing
5. Select Zone – Soft freezing and chilling made for easy meal preparation
6. Non-Plumbed Automatic Ice Maker
7. 3 different sized drawers for easy organised storage
