Stainless Steel

Inverter Technology

The use of super energy efficient Inverter Technology means the CX Range is 33% more efficient in comparison to the G Series. Utilising multiple temperature sensors and Neuro Fuzzy Logic, the CX memorises your usage patterns and seamlessly adapts its power levels to minimise temperature fluctuations whilst maximising energy efficiency.

*300 and 400L Multi Drawer Category

Key Features

Humidity Drawer with Vitalight Technology

Slow down the wilting process of leafy greens and maintain their original vitamin and antioxidant levels with the unique Vitalight Amber LED Lighting System. Fruit and vegetables stored in this specially designed Humidity Drawer with its integrated Vitalight Amber LED Lighting System will last significantly longer in comparison to conventional vegetable crisper bins.

Non-Plumbed Automatic Ice Maker

Always have fresh, clean ice with the Non-Plumbed Automatic Ice Maker. As there is no separate plumbing connection required, this cost-effective approach to ice making means the fridge can be placed anywhere in the kitchen, not just near existing pipe work. Simply fill the removable water tank and the ice maker is ready to go.

Freezer Drawer

A convenient sliding top tray is ideal for large flat pack or frequently accessed items, and is easily pushed back to reveal the large bin for bulky items. The useful top-down view ensures that your food is easy to organise. The bin can also be completely removed for easy cleaning.

MR-CX370/402 KEY FEATURES
